EDUCATION

Chandigarh University

Bachelor of Engineering in Computer Science

- CGPA: 9.04

Gharuan, Punjab

2023 – Present

Metropolitan School

Intermediate (ISC Board)

- Percentage: 84.4%

Gorakhpur, Uttar Pradesh

2021 – 2022

Metropolitan School

Matriculation (ICSE Board)

- Percentage: 90.8%

Gorakhpur, Uttar Pradesh

2019 – 2020

PROJECTS & TRAINING

CodeSphere | React.js, Node.js, MongoDB, Stream SDK, Clerk

Jan 2026 – Present

- Engineered a production-grade, full-stack collaborative coding platform designed for scalable, distributed infrastructure, used for real-time pair programming and technical interviews, featuring live code sync, video calls, and session management.
- Architected a sub-50ms real-time sync engine using **Stream Video & Chat SDK** for WebRTC video calls and **Monaco Editor** for collaborative code editing.
- Secured the platform with **Clerk** OAuth2 (Google & GitHub), offloaded async workflows to **Inngest**, and enabled sandboxed multi-language execution via **Piston API**.

StudyNotion | React.js, Node.js, Express.js, MongoDB, Razorpay

Oct 2025 – Dec 2025

- Designed and shipped a full-stack EdTech platform where instructors publish courses and learners enroll, rate, and consume content through a seamless dashboard.
- Built a secure payment flow with **Razorpay**, OTP-based auth, and **Cloudinary** media pipeline handling end-to-end course creation and delivery at scale.
- Architected a modular MVC backend with **JWT** access control and **OAuth2**, enforcing role-based permissions with clean separation of concerns between instructor and learner workflows.

Second Brain | TypeScript, React.js, Tailwind CSS, Node.js, PostgreSQL

Feb 2025 – Apr 2025

- Developed a type-safe full-stack knowledge management app in **TypeScript** with secure auth, enabling users to create, tag, and share structured notes and resources.
- Engineered a scalable **PostgreSQL** backend following MVC architecture with optimized relational schemas, complex SQL queries, and a responsive Tailwind CSS frontend with reusable components.
- Implemented **JWT**-based authentication and role-based access control to ensure secure, user-specific data isolation across all API endpoints.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, TypeScript

Frameworks: React.js, Node.js, Next.js, Express.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, SQL, Prisma ORM

Tools & Platforms: Git, GitHub, Vercel, VS Code, Postman, Bash, IntelliJ

Libraries & SDKs: Stream Video/Chat SDK, Monaco Editor, Socket.IO, Clerk, Inngest

Concepts: Data Structures & Algorithms (600+ problems solved), Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, System Design (Scalable & Distributed Systems), RESTful APIs, MVC Architecture

ACHIEVEMENTS & CERTIFICATIONS

Elite Certificate – Introduction to Internet of Things | IIT Kharagpur

Jan – Apr 2025

- Achieved a consolidated score of **97%** ranking in the **Top 1%** among 38,143 certified candidates nationwide.

IBM Course Certificate – Databases and SQL for Data Science with Python | Coursera

Mar 2025

- Completed an industry-recognized course authorized by **IBM**, covering relational databases, advanced SQL, and Python-based data science workflows.
